In September 2023, we presented the Metaverse to clients and consulted with them what they would find useful and help on the Metaverse.

Ideas included the following:

- More 15min counselling groups with staff members:
 - Relapse prevention
 - CBT
 - Sleep hygiene
 - Nutrition
 - Healthy relationships
 - Dealing with stress
 - SMART Goal-setting
 - Emotional regulation
- More interaction between clients online
- Security to ensure the metaverse is safe for ex-Glen clients
- Virtual bedrooms so future clients can see the space
